-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Detailed Action

1.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 16-18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Monroe in view of Iizuka.

Monroe teaches a communication method (performed by apparatus 180) for selectively (via switch 46) performing real-time facsimile communications via Internet Network 14, and facsimile communication without the Internet (network 22); wherein a communication parameter (type of protocol chosen for example) T.30 for non Internet Fax and T.38 for Internet fax.

Monroe teaches a communication apparatus capable for real-time communication via the Internet, comprising: communication unit 180 adapted to perform

Art Unit: 2626

communication; and changing means (control means as shown by figure 5) for changing a communication parameter used by said communication unit, based on whether the real-time facsimile communication without the Internet is to be performed. Internet is performed over network 14.

What is not specifically taught is the facsimile communication is based on ITU – T Recommendation. T.38.

What Monroe fails to explicitly explain is the specific use of the T.38 recommendation.

lizuka teaches the specific use of the T.38 recommendation for real-time fax communication.

Since, Monroe and lizuka are both directed toward the facsimile of e-mails over the Internet, the purpose of using the T.38 recommendation, as the standard, is obvious to anyone of ordinary skill that the above standard is that used for submitting e-mails by fax communication over a network.

Since, lizuka clearly teaches the use of the T.38 protocol in e-mail communications during a fax communication, it would have been obvious that the fax communication described by Monroe is to be performed over the same network giving that the T.38 is the industry standard.

2. Examiner's Remarks

Claims 16-18 have been amended but no arguments have been advanced traversing the rejection to these claims.

Other pending claims have been amended to includes limitations which had been previously indicated as allowed.

3.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
